

NC-SLP20

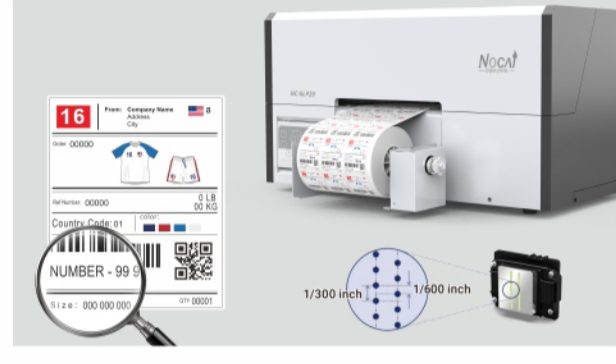

High-precision color scanning label printer

NC-SLP20 scanning label printer from Nuocai, high-quality, personalized customization and color can be realized on demand; multi-material and different industries customization are available; wide printing format, the first color label printer with 8 inches; delicate and fashion design, save more space.

Features

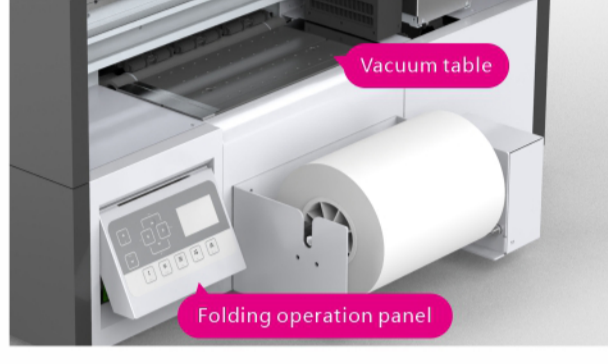

High precision High saturation High quality

Equipped with 2 Epson I1600-U1 printheads and maximum resolution is 1200dpi, minimum font size is 3pt. High saturation and full-color presentation can satisfy output need of high-quality customer.

Well-designed and comfortable to use

Folding operation panel and easy to operate, suction platform and pressure are equipped, the printing material can be more flatter and the paper-moving more accurate.

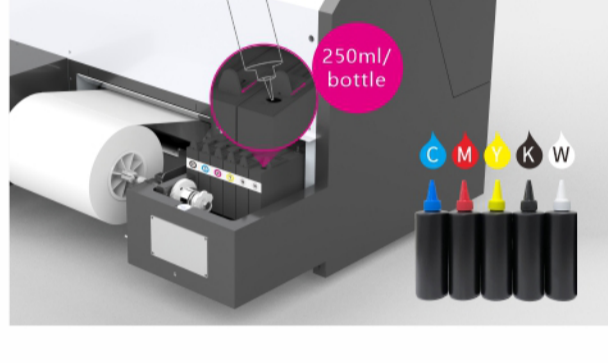

Wide printing format and easy to install paper

The widest printing format :200mm, mass production of labels come with easy loading and unloading paper roll fixtures, rear paper loading, front paper receiving, convenient for different media sizes and fast switching.

Intelligent prompt and easy to filling ink

Automatic ink circulation and lack of ink alarm prompt function, each color ink cartridge are independent from each other, add ink according to the corresponding color, easy to operate.

Intelligent identification Support multi-media label application.

Equipped with a pitch sensor to identify label edges automatically for precise positioning. Support a variety of types of label media and meet a variety of specific label printing needs.

Personalized customization Low cost

Different color output through ICC curves and satisfy personalized customization and high-quality label output. Printing labels on demand and reduce stock cost.

Effect display

Manufacturing Colorful exterior box label

Flexible for manufacturing labels, durable, waterproof, light resistant, scratch resistant

Long streamer label

It enables streamer printing and is suitable for long label output such as retail industry and factory facilities for personalization.

Chemical industry Warning label

Widely used in chemical industry and warning labels are colorful, durable and scratch-resistant.

Retail industry Colorful price tag

The label information can be adjusted at any time according to the change of the outlet. It is not limited by color and widely used in the snack food industry.

Footwear industry labels

Flexible for footwear and apparel labels, ready to hit and dry, flexible adjustment of the content of the label, personalized customization is very convenient.

Computer configuration requirements:

Operating system: Windows 8/10/11 (64 bits)
CPU processor: Recommended i5, i7 and above
Memory: 16G or above recommended
Monitor: Recommended resolution 1920*1080 or higher
Hard disk type: 128G or above
Graphics card: Motherboard integrated graphics or independent graphics card (4GB video memory or above)
Network card: Gigabit network card 1000M

*Computers, computer desks, and machine bases need to be self-provided

Product parameters

Model number of the machine		NC-SLP20
Print head configuration		Epson i1600-U1*2
Picture of print head		
Resolution		960X900dpi /960X1200dpi
Ink type		Environmentally friendly UV curing ink
Cartridge capacity	CMYK	250ml/color
Effective printing width		0-200mm
Supportive material		Glossy, matte and synthetic papers
Paper form		Continuous paper, die-cut label paper
Material thickness		0.2-0.5mm
Roll paper configuration	Weight	Within 10kg
	Width	Within 210mm
	Diameter	Outer diameter within 210mm (76mm/3-inch paper core)
Interface type		Gigabit Ethernet cable
Supply voltage		AC220/110V, 50HZ/60HZ
Rated power		200W
Printing method		White and color come out together / Color, fluorescent and anti-counterfeiting come out together
Printing mode		CMYK + W/CMYK + W / CMYK + Fluorescent + Anti-counterfeiting
Printing speed		Fast Mode: 29.54m/h Production Mode: 13.72m/h High - Precision Mode: 2.35m/h
Software		RIIN
Graphic format		Tiff/Jpg/Pdf
Machine size	L*W*H	905mm*840mm*462mm
Weight		70KG
Packaging size	L*W*H	1.07m*1.095m*0.62m
Packaging weight		87KG
Operating environment	Temperature	25-28°C
	Humidity	35%-65%
Ink		Environmentally friendly UV curing ink
